

## HOW CAN...

- People safely occupy shared indoor air spaces?
- Indoor air and surfaces be sanitized effectively to ensure a healthy environment?
- We be protected from future variations and mutations 24/7/365?
- We combat and eliminate the transmission and spreading of pathogens (viruses, bacteria, fungi, molds and their odors).

## CIMR®S CAPABILITIES

- CIMR®'s Air Infusion Technology is designed specifically to kill airborne and surface pathogens.
- CIMR® is an ultra-low level, safe and effective Hydrogen Peroxide-based indoor air and surface disinfectant system that produces zero ozone.
- Hydrogen Peroxide (water and oxygen) actively targets and deactivates both aerosolized and surface pathogens in enclosed spaces.
- CIMR® is military-grade technology and scientifically proven through numerous independent lab tests and eliminates pathogens up to 99.999% pathogens.
- CIMR® continuously purifies the indoor air and sanitizes surfaces much faster than other systems and chemicals.

## CIMR®S CREDENTIALS

- Hundreds of military facilities, educational institutions, governments, counties, retail, industrial, entertainment, health care buildings including lodging, retail and residential have been and are using CIMR® with thousands of units installed worldwide.
- CIMR® is registered, verified, and accredited.
- CIMR® was independently tested, in accordance with national and international standards as required by the regulatory authorities.

## CIMR®S COMPLIANCE

- CIMR® is safe and has no adverse effects on metal, wood, fabric, and electronic equipment.
- CIMR® is FDA (Food Drug Administration) compliant and carries the CARB (California Air Resources Board) certification for emitting ZERO ozone emissions.
- CIMR® meets and exceeds EPA (Environmental Protection Agency), OSHA (Occupational Safety and Health Administration), CDC (Center for Disease Control) and the WHO (World Health Organization) Regulations in Air and Surface Disinfection standards.
- CIMR® technology and equipment has achieved various national and international certifications, registrations, compliance seals, and stamps of approval.

CIMR® saves lives, businesses and economies.
